

Product: TMR Tracker DataLink®

Multi Mixer DataLink®

TMR Tracker Single Mixer and Multi Mixer DataLink®

Digi-Star has renewed the Single Mixer and Multi Mixer DataLink®.

The renewed Single Mixer DataLink® offers the customer the following advantages:

- Better automatic exchange of data between TMR Tracker and the weighing indicator.
- Reading feed lines, line by line.
- Automatic back-up.
- Flexible setting of transmission and reception times.
- Setting of communication interval, specifically for the customer's farm.
- Choose from 24 channels.
- Choose from a range of 300 or 1000 meters.

Multi Mixer DataLink® offers the customer the following advantages:

- All advantages of the renewed Single Mixer DataLink®.
- Ideal for farms with 2 to 24 feed mixers.
- The customer can manage MULTIPLE feed mixers individually.
- Zone Control - to each individual mixer a specific group can be assigned.
