### DIGI-STAR® IN RUSSIA

**Fort Atkinson, WI....**September 20, 2012. Digi-Star LLC continues to grow and is expanding its distribution network around the world. Demand for precision weighing solutions is increasing in the Russian market. To help meet the needs of this growing market [www.Digi-Star.com](http://www.Digi-Star.com) is now available in the Russian language in addition to English, Spanish, French, German, and coming soon Portuguese.

Russian customers can now ask TMR Tracker software and hardware related questions directly at Digi-Star's helpdesk in their own language. Digi-Star Europe (DSE) Russian helpdesk is the newest addition to the worldwide helpdesk service provided by Digi-Star. A dedicated web site to precision feed management [www.tmrtracker.com](http://www.tmrtracker.com) is also available in Russian.

For timely service, DSE has set up a new service center in Russia. Serviks LTD. has contracted to do all repairs and troubleshooting for Digi-Star weighing solutions in the Russian market.

Serviks is a professional company with experience in the field of repairing controllers and other electronics in the agriculture industry. They have a professional team who guarantee products are repaired and back to producers as quickly as possible.

Serviks will use the same conditions as DSE to determine if a repair will be done under warranty. Serviks will provide telephone support for troubleshooting and they can also extend existing systems with extra ports, such as "printer" or "remote" ports, or extend them with the Cab Control system.

Digi-Star LLC is a leading manufacturer of electronic weighing systems, providing measuring solutions to optimize agricultural performance. This is done through precision load cells, sensors, indicators and feed management software packages.
