405410 OPTION-EZ3 EZFD DK
J904 W2.4G

Contains: 404381 circuit board with 403683 harness, keyceptacle, and 2.4GHZ wire antenna radio; hardware.

Instructions:
1. Remove back cover of the indicator. Unplug beeper.

2. Remove screws from Main circuit board and existing Option circuit board.

3. If needed, remove the existing J904 harness from the bottom of the housing.

4. If needed, cut holes for J904 connector in the bottom overlay.

5. Move circuit boards up slightly to allow the Datakey keyceptacle to clear the housing.

6. Remove the existing Option circuit board.

7. Attach harness to bottom of housing with screws and screw plate. Check that connector is oriented correctly.
10. Position the radio antenna up from the radio, next to J901.

12. Re-attach rear cover.

13. Change indicator settings to enable the serial port, enable the radio and set up the radio channel.
