1. **GETTING STARTED**
   1.1 Press **On**. A brief message is displayed (such as HELLO). The scale then enters the gross weighing mode.

2. **TO ZERO BALANCE THE SCALE (only with empty machine)**
   2.1 Press **Net/Gross** and then, immediately press **Zero**. **ZERO** is displayed briefly to show that the zero balance has been set. If **0** appears, the zero has been correctly set. If not, repeat procedure.

3. **TO CHANGE THE LANGUAGE**
   3.1 Enter 101 using the numerical keypad.
   3.2 Press **Select**. The current language appears on the display.
   3.3 Press **Select** until the required language is displayed.
   3.4 Press **On** to confirm the selected language.

4. **TO CHANGE THE ENTRY METHOD**
   4.1 Enter 441 using the numerical keypad.
   4.2 Press **Select**. **E-MTHD** is displayed followed by the number 1, 2 or 3 (1: Amount per Animal in [kg], 2: Percent [%] per Load, 3: Amount per Load in [kg])
   4.3 Press **Select** until the required entry mode is displayed.
   4.4 Press **On** to confirm the selected entry mode.

5. **TO CHANGE THE TOLERANCE (ALARM)**
   5.1 Enter 442 using the numerical keypad
   5.2 Press **Select**. **TOLER...** is displayed and a value between 0,5% and 10%, or **OFF**.
   5.3 Press **Select** until required value (e.g. 5%) is displayed.
   5.4 Press **On** to confirm the selected setting.

6. **TO RENAME INGREDIENTS**
   6.1 Press and hold **Ingr/Accum** and then press **On**. The scale displays **progrm**, followed by the first ingredient: **ingr 01**.
   6.2 Press **Ingr/Accum** until the required ingredient number is displayed. If the display already shows the correct number, proceed with step 6.3.
   6.3 Press **On**. The ingredient name concerned is displayed.
   6.4 Press **Clear** to delete the name gradually or press and hold **Clear** to delete the entire name.
   6.5 Enter a new ingredient name (max. 6 digits) using the numerical keypad. Each key contains 4 different characters.
   6.6 Press **On** to confirm the new name. The following ingredient number will appear on the display.
   6.7 Repeat steps 6.2 thru 6.6 until the required changes have been made.
   6.8 Press **Net/Gross** to return to the normal weighing mode.

7. **TO PROGRAM A NEW RECIPE**
   7.1 Press and hold **Recipe** and then press **On**. The scale displays **prog**m, followed by the first recipe: **rec 01**, or **rec- _ _** if you have not programmed any recipes.
   7.2 Press **Recipe** until **rec- _ _** is displayed.
   7.3 Enter the required recipe number (e.g. **01**) using the numerical keypad.
   7.4 Press **Recipe** to confirm the entered recipe number. A running text shows the chosen entry method. Then **INGR.01** is displayed.
   7.5 Enter the required ingredient number (e.g. **01**) using the numerical keypad.
   7.6 Press **Ingr/Accum**. The entered ingredient number with name is briefly displayed, followed by e.g. **01: _ _ _ _ _ 00**; the first number is the recipe number.
   7.7 Enter the required ingredient amount using the numerical keypad.
   7.8 Press **Load/Unload** to confirm this amount. The scale will then display **LOADED** to indicate that the ingredient has been saved in the weigher's permanent memory, followed by **INGR. _ _ _ _**.
   7.9 Repeat steps 7.5 thru 7.8 until all recipes have been entered.
   7.10 Press **Net/Gross** to exit the recipe entry mode and enter weighing modes.

8. **TO EDIT A RECIPE (only edit ingredient amount, do not add any ingredients!)**
   8.1 If you want to add ingredients, the recipe must be deleted (steps 9.1 thru 9.5)
   8.2 Press **Recipe** and then press **On**. The scale displays **prog**m.
   8.3 Press **Ingr/Accum** until the ingredient to be changed is displayed.
   8.4 Press **Clear** to delete the amount and enter the new quantity using the numerical keypad.
   8.5 Press **Load/Unload** to confirm this amount. The scale briefly displays **LOADED**.
   8.6 Repeat steps 8.3 thru 8.5 until all ingredients are edited. The scale displays **TOTAL** directly followed by **REC- _ _** to edit another recipe.
   8.7 Press **Net/Gross** to exit the recipe programming mode.
### TO DELETE A RECIPE (completely delete a programmed recipe)

9.1 Press and hold **Recipe** and then press **On**. The scale displays **PROGR**.

9.2 Press **Recipe** until the recipe to be deleted is displayed.

9.3 Press **Zero** and then press **On** to delete this recipe. A running text with instructions shows that the old recipe can be printed.

9.4 Press **Zero** to delete this recipe. The scale displays **RECIPE ERASED**, followed by the next recipe.

9.5 Repeat steps 9.2 thru 9.4 until all recipes have been deleted.

9.6 Press **Net/Gross** to return to normal weighing mode.

### TO LOAD A BATCH USING A RECIPE

10.1 Press **Recipe** until the required recipe number is displayed.

10.2 Press **Load/Unload**. The scale displays the number of animals or the programmed amount.

10.3 a) Press **Load/Unload** to confirm this number of animals and the programmed amount.

10.4 Press **Load/Unload**. The scale displays the calculated amount of the first ingredient.

10.5 Depending on the presetting the next ingredient will appear automatically or after **Ingr/Accum** has been pressed.

10.6 Once all ingredients have been loaded, the scale displays: **RECIPE COMPLETED TOTAL = XXX KG**.

### TO REVIEW A RECIPE (to check a recipe)

11.1 Press **Recipe**. The scale displays the first recipe loaded in memory.

11.2 Press **Recipe** until the required recipe number is displayed.

11.3 Press **Ingr/Accum**. The scale displays all ingredients of the recipe. At the end it displays the totally programmed amount, **TOTAL = XXX KG**.

11.4 Press **Net/Gross** to return to normal weighing mode.

### TO REVIEW INGREDIENT ACCUMULATION

12.1 Press **Ingr/Accum**. The scale displays the first recipe and the total amount that has been dosed in since the last time this ingredient was deleted (see manual, page 30).

12.2 Press **Ingr/Accum** until all ingredients have been displayed.

12.3 Press **Net/Gross** to return to normal weighing mode.
